

GANG GREEN/You Got It (Metal Mind Productions) I remember this band as they used to play City Gardens in Trenton, NJ back in the day. I had never heard any of their releases and after having listened to this I am sad I didn't pay more attention to this band. This is an awesome release of metal core that will satisfy both the old school metal and punk rock fan. Just fast hardcore with a metal edge to it. The vocals are a perfect blend of hardcore style and the production is great as well. This sounds fresh to these ears and there is no bonus tracks, but the band is still around and check em out on tour, only after you pick this up of course. Info:
