

GANG GREEN/Older...Budweiser (Metal Mind Productions) This is the band's 2nd release that was released on Roadracer many moons ago. It also includes an EP as bonus tracks. The band at this point were moving toward a more metal direction, but the vocals are shouted hardcore style of course. The songs just kick ass period as they are speedy metalcore numbers that would please any fan of the underground. Forget this shit they try to say hardcore, get this and discover the real deal.
