

GANG GREEN/Can't Live Without It (Metal Mind Productions) This is an awesome live record and not just the live production end of things. These songs just kicked my ass. Intense, fast, passion, and it just sounds like the band is having the time of their lives onstage. 15 songs are on this with songs from the old days up until their Roadracer stuff. This is hardcore at it's best and you also get 2 bonus tracks that appeared on some comp back in 1991. Grab a beer and mosh it up with the band. Info:
