

CYCLONE/Brutal Destruction (Metal Mind Productions) This is simply some godly thrash metal with some of the best thrash riffs and songs you will ever hear. Just massive rip roaring riff after riff of pure thrash metal as only this band can do. Sadly this is their only release, but what a release it is. Just pure speed and those thrash metal vocals complete with the high pitched scream brought me back to my days as a teenager in the denim jacket. This is a must buy. Info:
