

RATOS DE PORAO/Brasil (Metal Mind Productions) Oh my god is this some incredible speed metal/hardcore crossover music at its best. Metal riffs with tons of speed and intensity. Great hardcore vocals as well. The production is killer and the guitar sound just blows me away. I hadn't really paid much mind to these guys, but after hearing this I wish I had. Think Nuclear Assault playing hardcore with punk rock vocals. If your a fan of the crossover stuff, you simply must buy this. A smokin killer release with 3 live bonus tracks. Mosh it up. Info:
