### Live At Rockpalast 1982

Article posted on 27.09.2012 | 264 reads

For numerous bands in the 70s and 80s an appearance at one of the legendary Rockpalast Nights was an important, if not a decisive step on the career ladder. So also for KID CREOLE & THE COCONUTS, which were before their show in Essen Grugahalle outside their home almost unknown and whose tour had to be after the appearance transferred suddenly in many large halls. And even though the Yanks, strictly speaking, nothing to look at the Rockpalast was because rock is one of the rather few styles that the band just does not flow into their music. Instead, there is an interesting and eclectic mix of swing, pop, Latin and Soul to hear with a Caribbean flair. Accordingly, the stage of Grugahalle is decorated with palm trees, the musicians are dressed in matching costumes and besides drums, vocals and guitars, there is a whole range of exotic instruments to hear, including various wind instruments, drums and rattles. And as would be so not the show flashy and of course clichéd enough, August Darnell and KID CREOLE surrounds from the second track even with a small group backing singers and dancers, who appointed him the audience's attention a little have been disputed, but rarely in the focus of the DVD back. managed quality of image and sound, as already known from previous "Live At Rockpalast" recordings, the age is not due to be optimal, but in any case perfectly fine, and surprisingly, it is through different camera angles also , the overall effect of the show good catch. Only the almost never faded crowd I had seen in at this gig particularly liked a bit more often. entertaining is the "Live At Rockpalast 1982" DVD, in the way, also a second DVD with the recording of the show KID CREOLE & THE COCONUTS ' June of that year is included in the Cologne Satory house, so all, but of course you have to have something left for the band's style, to really find pleasure in this package.
