### Blu-Ray Review: Alien 2: On Earth

Posted on [February 7, 2012](#) by [Dennis](#)

Midnight Legacy/MVD

Director: [Ciro Ippolito](#)

Writer: [Ciro Ippolito](#)

Stars: [Belinda Mayne](#), [Mark Bodin](#) and [I](#)  
(From [imdb.com](#))

**What they say:** A group of cave explorers discover an underground cavern by a mysterious living bear. The bear's home is a deadly, flesh-eating creature that has wiped out the entire human population. Can they survive total annihilation?

Never released in the United States, only a handful of countries saw a cropped and subtitled version a thirty years ago, that is until now.

**What I say:** In the 70's and 80's the thing to do in Italy was make a "sequel" to Lucio Fulci with Zombi, an unofficial sequel to Dawn of the Dead. And I can assure you that this is not Earth for a sequel to Ridley Scott's classic. But despite all that seeing this long lost

This film is all about the splatter splatter splatter! It's goopy gory and a hell of a thing about his Blu-Ray is how damn good it looks. To think that someone cared enough to bring a practically forgotten for 30 years is quite impressive. This transfer is quite honest and excellent sound.

I've heard that Midnight Legacy was disappointed with sales from this disc and would be a crying shame. If they can do this good with something like this, I would be a crying shame. If they can do this good with something like this, I would be a crying shame. We as fans must support this kind of endeavor if we want to see more.

Film: 7/10

Blu-Ray: 10/10

Highly Recommended!!!
