My first thought with Vader's "Sothis" was what the heck kind of crap is this?!?! Upon looking through the cover so nicely provided, I noticed that although there are seven items listed on my

What had greeted my ears with this release was an intro segment entitled Hymn To The Ancient Ones. This intro did not prepare me for the onslaught that I was hit with at the start of Sothis, the title track.	4. Wakin

Cellador	Vader is a pioneer in European Death Metal and have under their belt one of the best selling demos in death metal history. Listening to this album, having never heard Vader before, I could not be prepared for the brutal technicality and precision of the music. And then in comes Peter on vocals. Peter’s vocals are, indeed, a different approach to death metal music. His vocals are very throaty in nature, he sounds like a very gruff kind of guy that you just wouldn’t wanna mess with unless you had a death wish. I still had to look at the lyrics in order to fully grasp the full gist of what he was saying, but there were many times where I could actually understand what was being said...which, anybody who knows anything about death metal knows that that’s just a big NOT in this genre. And is, unfortunately, what seems to immediately give the genre its bad rap.	6. UNFORC

Communic	I found myself listening to “Sothis” four times in total. Each listening gave me a stronger, more in-depth sight to Vader. I realize why I see their name on so many extreme metalhead’s lists of must have’s and best of’s. This band is amazing! Alas, if you are not into extreme metal, you just aren’t gonna get it. And I know how much people hate it when other people say stuff like that....because I’ve had it said to me plenty of times. But there is no crap here in Vader’s “Sothis”. It is death metal at it’s finest. These guys deserve every bit of attention they get and should have a lot more. It’s that good.	16. Calvi
