

DAMNATION/Resist (Metal Mind Productions)

This is a re-release I believe and I think there is 2 bonus tracks too. I used to sell this when I was doing mail order distro and after listening to it again, I still have to say this is a wicked, fast death metal band in the vein of Vader and Decide. The production is tight and the riffs and drums will smash you into submission. This is not slow, it's not pretty and it is the way death metal should be. If you missed this the 1st time around, it is time to discover them.
