YATTERING – LIVE EXTERMINATION CD

Review by Mark Jason Murray

2004
Metal Mind
14 tracks
Playing time: 42 min. 57 sec.

One of the few Polish death metal bands to build an international fan base, Yattering is a blasting force of death metal savagery. The release of 'Murders Concept' through Relapse records really brought them to the attention of American audiences and this live release will show them as a band to definitely be on the look out for.

This live concert from 2000 (also available as a live DVD) displays the bands extreme brutality and unrelenting savagery. Their songwriting is technically proficient and heavy, coated with deathly growls and screams. The sound quality of the release is very good and mixed sufficiently showing the band more than capable of delivering their songs with intensity and clarity. They even throw in a couple covers to keep things moving.
