DISSENTER/Furor Arma Ministrat (Metal Mind Productions) Fast pounding death metal while not super original, more than gets the job done. Think Malevolent Creation and bands like that. This is speedy death metal with no jump riffs or tough guy vocals. This is just blazing speedy death metal with tons of fast riffs, heart pounding drumming and sick death metal vocals. The production is thick and man does this band play fast. They do slow it down at times and then they remind of Immolation, which isn't a bad thing at all. This is death metal they way it should be.
