CORRUPTION/Devil's Share (Metal Mind Productions) This band has had 6 prior releases and this is my 1st time hearing them. The bands bio says they play stoner rock, but I would say this is rock n roll with a blues edge and a bit of stone rock as well. The bottom line to me is this is some ass kicking rock with tons of great, catchy riffs and it is heavy as well. The singer has a gruff voice and he fits the music well and he belts out the lyrics with force and intensity. If your stuff like Kyuss and bands like that, you'll love this. Info:
