METALMANIA 2008 DVD (Metal Mind Productions) This is a DVD from a metalfest in Poland in 2008. The camera work and sound are excellent and you get 31 tunes from many bands and some extra include interviews and a history of metalmania. Some of the bands that I loved included the mighty Immolation, Artillery, Overkill, Megadeth, Flotsam and Jetsam, Primordial, Vader, Satyricon, Marduk and a few others. This is one great DVD. Info:
