

Shadowland Edge of Night
Metal Mind Records

Recorded during their European tour at the start of the year, this is a visual record of Shadowland's first concerts in an remarkable 13 years. Having caught the tour at Riffs Bar in Swindon myself, it is a pleasure to see the band play in the more grandiose and appropriate setting of Metal Mind's regular Theatre venue in Katowice, Poland. With Clive Nolan on lead vocals (and getting away with it pretty well) there's plenty of room for the excellent instrumental work of Mike Varty (keyboards) and Karl Groom (guitar). For those that know and love the band's three albums, this will be a delight, and for those that love (say) Clive's Arena, Pendragon and Caamora projects, there will be plenty of great music to discover here. The DVDs production standards are well up to the Metal Mind label's usual standards, and extras include the usual interview and part of another live gig recorded in Holland. **Stephen Lambe**
