

**Tinyfish      One Night on Fire - Live In Poland**  
**Metal Mind Productions**

This is another DVD recorded at the first Prog Rock Festival at the Wyspianski Theatre in Katowice, Poland, in February of this year. Tinyfish are not like most bands. Their music is prog oriented yet very accessible. The occasional appearance of Rob Ramsay to deliver some often abstract spoken word parts sets them apart from many of their contemporaries, as does their use of a guitar synthesiser rather than standard keyboards. The set for this show highlights material from their debut album Tinyfish, the recent mini-album Curious Things, and the much anticipated second album Big Red Spark. The band are going from strength to strength and the new material sounds great. It is difficult to think of anyone who enjoys himself as much on stage as Simon Godfrey, and the rest of the band feed off his enthusiasm. His relaxed style and humourous between song banter means you are never quite sure what is going to happen next. The DVD features the traditional extras, including an interview with Simon Godfrey and Rob Ramsay, and a documentary Five Lives On Fire. **Miles Bartaby**
