MVD Visual Announces Upcoming Metal, Progressive Rock DVDs - April 20, 2007

MVD Visual has announced the following upcoming DVD releases that are sure to please metal and prog rock fans. All four of the DVDs are set for a May 1st release date.

METALMANIA 2006

Metalmania is the biggest and the most prestigious metal festival in Central-Eastern Europe. Every year the main stage plays host to the top metal bands from around the world (DVD), while on the side stage there's a preview of the young Polish metal scene (CD). The 2006 DVD features the best fragments of performances of such renowned artists as Moonspell, Anathema, Therion, Acid Drinkers, Nevermore, Vesania, 1349, Hunter, and Hieronymus Bosch. The DVD includes detailed info about all bands (biographies, discographies, web links), photo gallery, festival history, 4 downloadable desktop images, and short interviews with all main stage bands featured on the DVD.

PENDRAGON - PAST AND PRESENCE

This DVD features neo-prog rock's great eminence Pendragon in an exceptional show celebrating the 21st anniversary of the release of THE JEWEL album. On this very special occasion, the band decided to present to the audience an untypical setlist, including mostly songs from the band's classic debut THE JEWEL, and several other classics back from the Marquee Club days, plus a few surprises. The band also decided to perform in a special line-up, joining forces with other musicians from Pendragon's history: John Barnfield, Julian Baker, and Rik Carter. Get ready for nearly 2 hours of some of the best music that the neoprogressive genre has to offer!

NEO - BROADCAST

This spectacular DVD features a performance by the supergroup NEO filmed at the Wyspianski Theater in Katowice, Poland. Formed by such prog-rock veterans as Mark Westwood (the Martin Orford Band), Clive Nolan (Arena, Pendragon, Shadowland), John Jowitt (IQ, Jadis) and Andy Edwards (IQ), NEO delights the neo progressive crowd with a repertoire of songs from Shadowland, Arena, IQ, Pallas, and Pendragon. As Clive Nolan comments, NEO's main aim was to try and brake some new frontiers. The gig featured a guest appearance of two other eminent prog-rock figures: Pendragon's vocalist/guitarist Nick Barrett and Pallas' vocalist Alan Reed.

ANDROMEDA - PLAYING OFF THE BOARD

Get ready for a strong dose of progressive metal! This Swedish quintet offers their trademark powerful and sublime compositions that are both structurally intricate and overflowing with a vast spectrum of emotions. The band went on a European tour in the autumn of 2006 to support the album Chimera and wrapped it up with a performance in Katowice, Poland, which resulted in this, their first live DVD. An hour and a half of progressive music at its very best,
