

"Banshee!!!" (MVD Entertainment) is a horror flick about a group of college pals on a camping trip who are stalked and slashed by an unknown creature with the ability to make them hallucinate in response to sound waves. Except for the sound causing hallucinations gimmick, director Colin Theys incorporates practically every horror cliché. The mouthless banshee is creepy, as it is equipped with vibrating flaps enabling it to emit sound and shape shift. There is a fair amount of suspense, but the characters are mere creature fodder.
