Jamdown, DVD

Jamdown, DVD Review

Jamdown contains 70 minutes of rare footage that communicates the intensity and deep spirituality of Jamaican roots reggae music and the environment that gave rise to it.

Jamdown

Footage of *Toots And The Maytals* and *Cedric Moyton And The Congos* is interspersed with street scenes, travel scenes and interview snippets that show remarkable creativity arising out of poverty, and aspirations of peace being spread infectiously by the power of song.

Jamdown was filmed in 1980 and was released on a very limited basis only in France. Collectors will value this gem of music history, now made widely available for the first time in 30 years. Some of the only known early footage of *The Congos* is included. Collectors, historians, reggae enthusiasts and lovers of spiritual music alike will find this DVD to be a valuable addition to their archive and an inspiring piece of musical heritage.
