HEWHOCANNOTBENAMED - Sunday School Massacre {MVD} For ThoseWhoDoNotKnow, HEWHO... is a main-stay of the Punk Rock 'n' Roll train wreck that is THE DWARVES - he's the nude one with the mask! THE DWARVES comparison is unavoidable as this has a distinct 'Little Girls'-meets-'Must Die' vibe and besides HeWho we get SaltPeter on bass with guest appearances from Blag Dhalia, Rex Everything and Wholly Smokes (but no Vadge Moore). This is no DWARVES blueprint though; 'Toxine' is a veritable Rock ballad; one of the stand out tracks - 'Medication' - has a QUEENS OF THE STONEAGE vibe and 'Wake Up' includes some Hip-Hop beats. Elsewhere 'Daddy Is Dead' and 'Happy Suicide' are archetypal amphetamine-laced rockers; 'Superhero' has Blag Dhalia deliver a too-catchy-for-words vocal; 'Hate Song' is a litany of disgust over a rocking back drop and 'Duct Tape Love' has a soaring chorus as it prescribes typical DWARVES-style sleaze. Lyrics?? Take a look at those song titles and go figure! This is far from the sensationalist GG ALLIN freakshow I was expecting and better for it. DWARVES fans (of which I am one) will groove on this big time! (22.10.10)
