Maybe "they" meant "should never be made."

Facts of the Case

It's the story of a man torn between his love for a woman and his love for a good fart.

The Evidence

1. It's called **F.A.R.T.: The Movie**.
2. It's not a movie, it's a video.
3. It's actually more like a home video.
4. It's a comedy, only...
- 5...it's not funny.
6. It's 90 minutes of stale fart jokes.
7. (The jokes are stale; I can't vouch for the farts themselves.)
8. Another flatulence flick, **Big Wind on Campus**, was released on DVD in the UK as **F.A.R.T.: The Movie**.
9. Why are there two fart movies at all?
10. Why is there even one fart movie?
11. This **F.A.R.T.** was so lame, it made me pine for the comparatively sophisticated stylings of *MadTV*, *Flavor of Love*, [Keeping Up With the Kardashians](#), and everything [Saturday Night Live](#) has done recently that didn't involve Betty White.
12. The apparently ripped-from-VHS image is so poor, it's like watching a movie in a car wash.
13. PCM audio appears to have been recorded in a strip mine.

14. Bare bones disc, meaning the short film "Cabbage Is Your Friend" remains unreleased.
