

Finally, there is **Shonen Knife – Live At Mohawk Place 2009**. This DVD is a live show shot in Buffalo, NY on the last date of their US and Canada tour. The band is in top form. They are not as cutesy as I seem to remember from seeing them in the '90s. They play great, sound and look good and have fun with their set. There is even an appearance by former band member Atsuko who sings "Fruits and Vegetables." The DVD is professionally shot, but aside from a brief interview all you get is the live show. Fans take note. ([www.mvdvisual.com](http://www.mvdvisual.com))
