"Julian Assange: A Modern Day Hero"

"Inside the World of WikiLeaks"

Amos Lassen

By now, everyone has heard of Julian Assange and Wikileaks. Assange is a journalist, a publicist and he runs (at least he did before he was arrested) an internet site that discloses priority information about the governments of the world. Originally from Australia, Assange has lived all over the world. He is a spokesman for freedom and he is anti-censorship. Wikileaks has brought him several awards. Yet even though we know who he is but we don't know what he stands for. After watching this video you will know a great deal about him.

There are over three hours of information on the DVD and I was really surprised about how much I did not know and now that Wikileaks has been nominated for the Nobel Peace Prize, this film becomes that much more important. The film opens our eyes and shows us the human Assange. My mouth fell open several times as I watched and the beauty of the film is that it does not take sides. Rather it lets us reach our own conclusions. With so much attention about Assange now, the timing for the release of this dvd is perfect.
