Are [Julian Assange](#)'s days under the Klieg lights numbered?

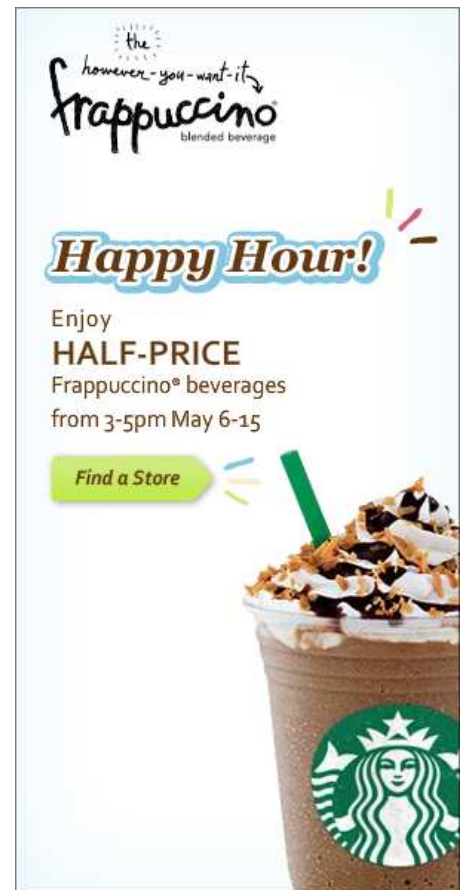

"Julian Assange - A Modern Day Hero? Inside The World Of WikiLeaks" is coming to DVD.

As you'll see in the trailer below, the film showcases some candid footage of the wily Assange explaining WikiLeaks and his role in the controversial organization.

"Modern Day Hero" is an exploration of the WikiLeaks founder and his rise to global prominence during the back half of 2010. Assange founded WikiLeaks years ago but became a household name after releasing a trove of documents that detailed the U.S. failings in Afghanistan.

The State Department pursued Assange, but found he didn't break any laws by releasing information through WikiLeaks. According to Assange, he is now the victim of a character

assassination based on spurious rape charges by woman he had consensual relations with in Sweden.

The documentary is a first-to-market attempt to get Assange's story on film and into your home. Dreamworks recently purchased the movie rights to books about Assange, from which they'll likely create a composite thriller. Rumor is [Matt Damon is up to play Assange](#).

Cyberspace has made 'privacy' obsolete
for individuals , corporations and government :
if government 'has a turd' it tries to hide it ,
under the veil of "NATIONAL SECURITY" .

It is "IN GOD WE TRUST"

SO WE DON'T NEED ANY STINKIN' 'SECRETS'

like 1100+ "ghost employees" @ central and NSA and the DOD :

we (USA) do NOT have a 'government'

they have made 'government' a Country (USA) Club :

get paid for staying away and merely appear to 'work' for their pay

the proof is in the pudding we need to take-a-peek

under all of these collective 'veils' of secrecy

so we can find-out why stuff is not working right

the answer is that 'nobody is actually 'working' .
