Rating: 6 stars!

This CD is split between 3 Horror Rock bands & all the bands are the spawn of The Misfits...the first band represented is CREEPERSIN.

Creepersin's first cut is a rockabilly track, then track #2 goes into pop-punk, "I Need a Mate" is brooding & the charm in the band is their lo-fi sound & attitude.

"Sickle Sick" has a Billy Idol vibe to it & "Glory.." reminds me vaguely of Bauhaus.

Die Monster Die has a song on here called "All Covered..." that has a guitar riff very similar to "Girlschool" by the hair band Britney Fox & "Deep Space..." is the song that caught my attention because the guitar tone is heavy & this particular song just moves really fast!

"Lucky Number 666" is a kick ass rocker as well!

OTHERS round out this cd & their first track is heavy but slower in pace than what Die Monster Die finish up with.

"Ricin Ball" picks up the pace & again, you can hear the early Danzig influence all over EVERY track on this cd, it's all such heavily influence MISFITS related music & the last song on this cd is a long track that's probably a little longer than it needs to be, personally I would have closed the cd out with a loud, fast punk rock number, but the cd closes with a slow paced rock track.

Like I said, if you love The Misfits you'll dig this cd!
