Of all the characters, Raimi was my favorite. With his buck teeth and puppet acne, he manages to narrate his way on a trek through the forest that had me laughing early on and then laughing even harder as he explored the house later. I think he had all the best lines and definitely the best chase scene in the whole film that evoked a very *Scooby-Doo* kind of feel from the music to the cartoon-like path they took through the house.

Don't worry that there's not enough blood; there is definitely plenty of mayhem and gore in this movie in addition to the comedy. I can truthfully say I've never seen puppets die in as many gruesome ways as they did here. Deaths varied from monsters eating heads to soldiers shooting holes in other soldiers to claws slicing halfway through a puppet's face (with the requisite brains/gore inside). Every time I thought I'd seen them all, the crew came up with another one.

In addition to the film (about 70 minutes long), there are a couple of commentary tracks as well as a couple of monster designs they decided not to go with.

All in all if you're looking for a violent, bloody, puppet-based horror flick with crude humor and language, *The Puppet Monster Massacre* should be right up your alley. Even if you're just looking for something different in the horror/comedy genre, it fits that bill too. But either way, this has to be one of the more original concepts for a horror film I've seen in years and I'd love to see more from Dustin Mills and his crew. Who knows? Maybe this will kick off a whole new genre of horror!

This looks pretty funny. I went to see Avenue Q and yes, puppet sex is quite disturbing. :D

@Nukapai - I'm glad I'm not the only one who thinks so. :)
