SYNOPSIS:

Hailed as having "the most WTF moments in movie history" Antfarm Dickhole is that have nested inside a living human body. The unwilling host discovers that w defend their nest. Thus begins a tragic tale of what happens when the powerles:

REVIEW:

The name of this movie is about as ridiculous as the film itself. So don't come expect you've already scratched your head, then you most likely soon realized that the Zebub group.

However, upon beginning the viewing of this film sent over from the MVD group, day and announced..."You know what we're missing from the collective? A movie penis! Yep, keep going, keep going... Then, once they complete their mission, y hump various open holes (like a car exhaust) releasing them upon naked chicks

Why are the chicks naked, you ask? I'm not really sure, they just end up that way. They might start out clothed (or maybe not) and then ...whoops..... clothes gone.

Oh, ya, and we won't question the idea that often women will simply just show up unclothed first. That should add a some flair...

"Antfarm Dickhole" I believe was created purely for the ability to announce its sick intentions. The ants used are obviously rubber bugs, the kind you buy from the kids section of a store. For the purposes they are simply thrown onto some form of naked body of which we have to believe that the victim was just attacked.

I also have to ask.... if one of the actresses goes down on a (obvious) fake penis, is it considered p*orn? Ok, well then, what if she pulls a vile of red ants (fake candy-ant) and pours them "into" the penis? Ya, thought that would yank ya. Good times ahead,

Bill and his friend in the mean time discuss life, converse about being bullied or j (order). They become more involved in discussions that are seeded with the real antfarm dick. Not that, that is an issue now, but that Ant-drew is brewing with his on a group of thugs, he proclaims that he's packing an "army" now (hence army).

We tend to see way to many shots of penis in this film though the prop resemble together in the shape of a dick. So there's your sign....

Bill Zebub directs and stars in the production with his harem of on call titty flashe that there's not enough male content here....well, every one other scene is a bo

The movie is filled with one-liners usually associated with "ant" humor, so pay at (falling in love with "ANT-drea", "Mary-Ant", "Ant-toin"...etc) If the lines don't dire forward to cheesy lines like "Well, I may have good tastes, but I taste good". It's never attempts to be serious.

What is the attraction here AND with the cheesy titles? From looking at the Zebu and then made soon to be out of stock. So past exploits are left to collectors who shelf up to date. The films such as ""Antfarm Dickhole", are silly, shot cheaply, a guess) for the single act of calling a few friends over to enjoying over a few beer "Dickhole".....note to self, this review is the most I've ever had to use that word). talents of a few strippers who bare all while supporting its ridiculous premise. It's exploitation....rather I prefer Zebub-ploitation (cause you can bet there will be m "Antfarm Dickhole" is a disgusting little maggot of bad baste sure to win your hea
