HOOKER DVD COOK WITH THE HOOK: LIVE 1974 DUE JUNE 19

The late legendary blues giant **John Lee Hooker** left an indelible mark on rock and roll. On June 19, the good folks at MVD Entertainment Group will serve up still more proof of why the Rock and Roll Hall of Famer's music was such an inspiration for so many classic rock artists (the **Rolling Stones**, the **Yardbirds**, **Eric Clapton**, **Carlos Santana**) that followed with the release of the DVD *Cook with the Hook: Live 1974*. Recorded on July 6, 1974 in Gardner, MA, the set includes Hooker hits "Boom Boom," "It Serves You Right to Suffer," "Sweet Sweet Thing," "Whiskey & Women," and more.

Dial Global is a radio syndication company owned by Oaktree Capital Management and co-owned with the company's radio ownership company, Townsquare Media. As a result of its numerous purchases and recent merger with Westwood One, Dial Global now controls the operations of remains of numerous prominent radio networks of the past, including the NBC, Mutual, Transtar, RKO, Waitt, Jones, and Drake-Chenault, as well as the distribution rights to the CBS Radio Network, whose stations remain under ownership and operation of the original CBS Corporation (although Townsquare has purchased stations from CBS as the latter exits the smaller markets).
