

DVD Title: The Point (MVD Visual)

You might be interested if you like: Harry Nilsson, Ringo Starr, The Beatles “Yellow Submarine.”

Tell me more: Although it was directed and animated by Academy Award winner Fred Wolf, was narrated by rock’s most famous drummer Ringo Starr and features the timeless songcraft of Harry Nilsson, “The Point” is a wonderful animated movie that seemed to have been mostly forgotten before its recent re-release by MVD Visual. Now a remastered version of the full-length film is available and will thrill fans of Nilsson and Starr, as well as a new generation of kids with a still-relevant tale of Oblio, a round-headed child living in the world of “Point.” The animation is simple but colorful and stylish; even more important is the collection of Nilsson songs (notably “P.O.V. Waltz” and “Me and My Arrow”) that continue to inspire. Bonus features on “The Point” include documentary shorts on Harry Nilsson and the making of the film itself.
