## "I Spill Your Guts" DVD (director: James Balsamo)

This ultra-micro indie trash film follows closely in the footsteps of director Balsamo's previous film, "Hack Job", as it also features celebrity cameos from Dave Brockie (aka Oderus Urungus of Gwar), Lloyd Kaufman (of Troma), and Debbie Rochon. As well, we get Andrew W.K. making a brief and bloody appearance. Anyway, in "I Spill Your Guts", a greedy military veteran double-crosses his war-hero friend, leaves him for dead, and steals his glory. The friend exacts his revenge by becoming a sort of undead serial killer.

Viewers will undoubtedly be pleased to see plenty of bouncy (usually pierced-nippled) breasts, limb hackings, and gallons of gore. The soundtrack is jam-packed with death metal and industrial sounds, almost to excess. Sure, the acting, dialogue, and storyline are all pretty forgettable and awful, but this is a fun film and made with tongue thoroughly in cheek. Maybe I lost interest, but many fans of sleazy Troma-style cinema will find something of interest in "I Spill Your Guts". ([Acid Bath Productions](#))
