A professor in America decides to find out who he is by plunging into a discovery of his ethnic descent. Oddly, only a projectionist holds the key to the door the professor wants opened on his Romanian Jewish heritage. Sound quirky? PHANTOM FATHER is a journey film and its scope is epic in a personal kind of way. The story uses intrigue and suspense, as well as a rich cornucopia of symbolism. The film strays from traditional filmmaking in interesting ways. Anything can mean more than it seems. PHANTOM FATHER is both a deeply personal sort of story and it's also an exercise in creative, original filmmaking. It's not a typical film and therefore should draw viewers who dig drama and are seeking something a little different.
