#### PEEPWORLD INTERNATIONAL

50 SHADES OF BONDAGE: And for all you whippersnappers that think You Porn, F\*cking Machines and 50 Shades are something new under the sun, here's a two hour ride in the way back machine when Irving Klaw and Bettie Page wannabes were trying to outwit the postal inspectors and titillate with high heels, hair pulling, corsets, spankings and loads of girl on girl rope tricks. This stuff is so old that it got your pop hot when he found the 8mm film loops in your grandpa's sock drawer. And to think stuff like this is the fount from which so much fetish flows from. You might not want to watch these silent loops back to back but if you need some video wallpaper for your next fetish party, this'll be something that gets the party started.
