ABOUT ME

Media Reviews

This is a blog I write in, at this point, purely FOR FUN. I am not paid A CENT to do this. I have a dayjob in the Healthcare Field in Minneapolis that pays my bills. However, if I had my druthers, I would be paid to do this and/or some other form of media like radio or television. But of course that's not the way things work I guess. ...more to add soon (4/4/12 3:30PM) I have a learning disability and bad grammar.

Not a ton to add, although cool to learn about this along with the **Pinnick Gales Pridgen** album coming so early in the year. This is dropping on Sunday January 13th of all days. I have never been attached to his solo records, at least completely. **Poundhound** was interesting, and I found *Strum Sum Up* had a bunch of good tracks, but just from memory, I can't even recall which ones they were, lol. I just remember thinking it was 1 of his best records outside of **King's X**.

But my feeling is right now, the PGP thing I have higher hopes for, but this still should be worth hearing. These 2 videos/singles: I am at least assuming the 1st one "What You Gonna Do?" will be on this album. I do like some of the subtle layering and psych harmonies within those heavy grooves just from hearing it once.

"Holiday" may be on the record, or just a track he made for the holidays, or a bonus song or something given he made it for download on X-Mas.

This album *Naked*, I suspect will be just digital like those singles. But that along with the details of this record should be put up I'd think any day/hour now (unless it all comes on the 13th).
