My Boo

You know that you're getting old when you have to refer to the Urban Slang dictionary to understand what a movie's title might mean. Unbeknownst to me, there is a 2004 song by Usher and Alicia Keys titled "My Boo," as well as a 1996 pop hit by Ghost Town DJ's, in which the term is used as a term of endearment. At Urban Slang, there's an entirely different meaning and it describes a specific region of a woman's body. No matter, "my boo" has almost nothing to do with anything in the movie and, anyway, the movie can't be found on IMDB.com, so it may not actually exist. Ashlee McLemore and Revon Yousif star in the urban thriller about a stalker, Fred, and his longtime heartthrob, Lisa. In a cruel twist of fate, Fred moves into an apartment across the hall from Lisa, thus rekindling feelings held dormant since high school. At first, he finds ways to be in the same place as Lisa and, then, he plants hidden cameras and listening devices in her pad. Once Fred's ingratiated himself into her circle, he feels as if he's only one short step away from a lasting relationship. Trouble is, there are other guys in her circle who more closely fit the description of a boyfriend. Fred's more of a companion and confidante type guy. Being overprotective of his wannabe girlfriend, the young man pulls on his hoodie and attacks the competition. Her friends' pain opens the door for Fred, who feigns sympathy for everyone in the circle. Her awakening process leads to scary showdown. – Gary Dretzka
