MVD announces the first in an exciting new series of DVDs covering the colorful, storied history of modern professional wrestling. With its burst into the mainstream in the last decade or two, wrestling has made a deep impression. But it had already impacted die-hard fans for years and years prior. Evidence arrives in the form of SUPER STARS SUPER SERIES VOLUME 1: THE GREATEST PRO WRESTLERS OF THE 70s AND 80s. There are some true legends of the industry included here. Some of these bring me back to my childhood. Names like Junkyard Dog, Andre the Giant, Ric Rude, Jerry Lawler, Terry Funk and David Von Erich. That's just for starters. There's Lanny Poffo, Ivan Putski, Ivan Koloff, Gino Hernandez, Lars Anderson, The Mongols, The Kangeroos, Mike Graham, Ox Baker, Manny Fernandez, Jim Neidhardt, Tully Blanchard, Bruiser Brody, The Shepherders and more!!! It's a stocking stuffed to the brim with big names, big muscles and big matches. That's 27 matches across 8 promotions, to be precise. Three ring-shaking hours of VINTAGE pro wrestling, from back before it was "cool" to be a wrestling kid, all here in what is just the beginning, merely the opening volley in an artillery march of upcoming volumes in the series. It could get blood before it's all said and done. 183 min.
