Sharon Jones Reminded Me Why I Like Music

Featured Content

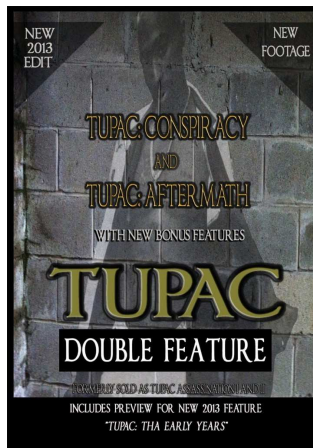

Sharon Jones is one of the most inspirational artists on the show circuit. It's not just her soulful voice, nor is it her hard and heavy dancing on stage, nor her soothing retro sounds that are reminiscent of class acts such as '60's female groups The Shirelles, The Marvelettes, The Dixie Cups, and others, that makes her such a powerful inspiration. Even Jones' uncanny, pure energy and movements, that seem to be channeled from the late James Brown, don't make her such a rousing figure. The inspiration is her story: A struggling singer who worked at a state prison as ...

Tupac Shakur: The Notorious Killing Of A Hip Hop Super Star by Tony Samuel

October 6, 2013

Will Their Ever Be Justice?

The murder of **Tupac Shakur** and the lack of any comprehensive investigation to bring his killers to justice is one of the scars that Hip Hop and cultural influencers need to bring to a just resolution.

Tupac: Conspiracy And Aftermath is a double disc DVD that will bring you up close and personal to the players who were on the scene. In this hard-hitting documentary, the trail can easily be followed in order to solve the mystery of who killed Tupac Shakur. The questions and answers in this video documentary are quite compelling. Clearly, the producers of this documentary feel their needs to be a credible investigation to bring his killers to justice.

Director **Richard Bond** brings the players who were directly involved in the Tupac mystery to the forefront. Hear directly from Frank Alexander, the head of security for Tupac. There are plenty of questions the viewer takes away from this film. Why was he not armed on the infamous night of Tupac's murder in Las Vegas? Was there a conspiracy in the violent execution of Tupac Shakur? Who would benefit from his demise and who had the motive and opportunity to pull off one of the most notorious killings in Hip Hop history?

Hear directly from **Michael Moore**, the only other security assigned to Tupac on that infamous night. Listen to him and make up your own mind. Michael's interview concerning what he heard and when he heard the confirmation of Tupac's killing should be reason enough for a real investigation in order to put this injustice to rest.

Love him or hate him, Tupac has become an even more beloved figure after his unsolved murder. There have been countless articles and theories concerning who committed the ultimate act – the brazen Las Vegas execution of a Hip Hop super star. The fact Tupac was on top of the Hip Hop world at the time of his murder makes the story even more tragic.

Tupac: *Conspiracy And Aftermath* are well worth viewing. Maybe one day the whole truth will surface and his killers will get justice.
