Tupac Double Feature: Conspiracy/Aftermath

Among the notorious crimes that may never be solved is the murder of hip-hop star Tupac Shakur, 17 months ago last month, in Las Vegas. There are plenty of theories as to the events that led up to the assassination, identities of the people who pulled the triggers and name of someone sufficiently powerful to have ordered the death of such a valuable commodity. “Tupac: Conspiracy” adds even more speculation to the mystery. Much of the testimony is delivered by former bodyguards Frank Alexander and Michael Moore, both of whom are dead. Above anything else, the film asks why the investigation of the murder has stalled and has all but been abandoned. The Las Vegas police have yet to interview several key witnesses shown here. One reason, of course, is because so many people have a vested interest in the truth not coming out, from label boss Suge Knight and the many police officers who were hired as bodyguards that night. The code of silence also impacts on the lack of progress. A second disc, “Tupac: Aftermath” repeats much of the information in the first DVD, while also digging a bit deeper in the man’s legend. – Gary Dretzka
