

In Heaven There Is No Beer DVD: This is a great DVD that tells the story about the LA 'Kiss Or Kill' scene (2002 – 2007). It's a pretty good story with a great insight into the scene from people who were there and lived it. I didn't know there were like 100 bands on that scene in its peak! Damn! That's some doing and those bands included the likes of the 'Bang Sugar Bang', 'The Dollyrots' and 'King Cheetah'. It's a great documentary and shows how a scene can get screwed up too! Lots of bonus material too! A pretty cool DVD where some awesome moments are captured. **8/10**
