

DVD REVIEW: THANKSKILLING 3

Friday, October 11th, 2013

Thankskilling 3 follows the feathered villain Turkie as he carves through the likes of a rapping grandma, a mindless puppet, a wig-wearing inventor, a bisexual space worm, and their equally ridiculous friends on his quest to recover the last copy of *Thankskilling 2*.

THANKSKILLING 3 returns original creators **Jordan Downey** and **Kevin Stewart** and has a cast that includes **Dan Usaj** and **Joe Hartzler**, porn star **Wanda Lust** and featuring the voice talents of SickAnimation.com's own **Marc M** and the team behind Slick Gigolo, **Bridge Stuart** and **Mike Litzenberg**. The soundtrack from composer **Zain Effendi** is available on iTunes.

Turkie is back and this time he finds out that there's one copy of *Thankskilling 2* left in the [world](#) and he won't stop until he gets it. The crazy bird goes through a new batch of victims in this over-the-top sequel to the now cult classic and everything has been taken to the next level with this sequel and then some – enter

Thankskilling 3.

First of all, people who first watch this [movie](#) are going to think it sucks but trust me folks, it's all part of the master plan from the filmmakers and it is meant to be this way and have this look! There's no way you can go into this movie and take it too seriously because the filmmakers didn't even do that, even though it's very well done, from set [design](#) to the crazy puppets. Besides the fun puppets that would make any *Crank Yankers* fan proud or any fan of *The Muppets* have nightmares, the movie also includes lots of spoofing of [Hollywood](#) blockbusters and even some cool special [effects](#) this go around. The human-puppet interaction is hilarious and really takes center stage this time but trust me, Turkie has his fair share of the spotlight and time to shine plus he just keeps on coming back for more.....with his chainsaw penis!

The story for *Thankskilling 3* is actually pretty fun, all of the characters are completely insane and a blast to watch and while this movie is still a very low budget production, it is full of imagination and lots and lots of vulgar and insulting dialogue that is sure to leave a smile on some faces while others will be left shocked and offended. Oh yeah, the movie also features some animation that will remind you of some Saturday morning cartoons and there's also an epic battle between two gobblers that goes into 8 bit video [game](#) mode. Remember kids, everything you see in this movie is meant to be, they meant to make it like this and that's what makes *Thankskilling 3* so cool and honestly, an instant classic!

The packaging is also insane! Beside the key art, there's also all kinds of added bonuses, on the front and back. This is sure to get some people's attention as well!

Bottom line is, *Thankskilling 3* is the most insane movie I believe I have ever seen and I've watched a lot of [movies](#) in my lifetime folks. This is the kind of movie that some people will totally get and love while others wonder why or even how a movie like this could even be made (you can thank Kickstarter and the fans!). This DVD releases on October 15th and to me it's a must watch and comes highly recommended, not because it's good but because it's so bad that it is freaking awesome, hilarious and unique and you won't see this kind of stuff in any *Muppets* movie!
