

Genitorturers *Flesh is Law* 2008 MVD

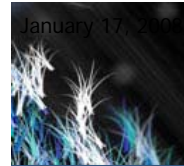

Though originally released in the early 2000's Genitorturers *Flesh is Law* CD is still a Goth and Industrial music must have for anyone who has a taste for music that is just a bit different, a bit disturbed and a bit dark. Recently re-released through MVD's Audio department, Genitorturer fans can rejoice now that they can get their hands on this disc once again.

The Genitorturers originated in Orlando, Florida in the early 90's. Their live shows are infamous, and they aren't just some gimmick trying to cover up poor music, they can actually play!

Flesh is the Law is an 8 song CD that includes the songs *Lecher Bitch*, *Public Enemy*, *Flesh is the Law*, *House of Shame*, *Terrorvision*, *Guns are Good*, *All Hell Breaks Loose* and *120 Days*. GEN's vocals is what makes these songs so appealing.

All in all, the good outweighs the bad when it comes to *Flesh is Law*, there were some songs (maybe 2 or 3 out of the bunch) that were less than stellar, but the rest of the album by far makes up for those few songs. The album may have been released over 5 years ago, but it is definitely worth filling a space in your music collection.
