Though originally released in the early 2000's Genitorturers Flesh is Law CD is still a Goth and Industrial [music](#) must have for anyone who has a taste for [music](#) that is just a bit different, a bit disturbed and a bit dark. Recently re-released through MVD's Audio department, Genitorturer fans can rejoice now that they can get their hands on this disc once again.

The Genitorturers originated in Orlando, [Florida](#) in the early 90's. Their live shows are infamous, and they aren't just some gimmick trying to cover up poor music, they can actually play!

Flesh is the Law is an 8 song CD that includes the [songs](#) Lecher Bitch, Public Enemy, Flesh is the Law, House of Shame, Terrorvision, Guns are Good, All Hell Breaks Loose and 120 Days. GEN's vocals is what makes these [songs](#) so appealing.

All in all, the good out weighs the bad when it comes to Flesh is Law, there were some [songs](#) (maybe 2 or 3 out of the bunch) that were less than stellar, but the rest of the [album](#) by far makes up for those few songs. The [album](#) may have been released over 5 years ago, but it is definitely worth filling a space in your [music](#) collection.
