PETER PAN SPEEDROCK - Spread Eagle {*Prophase*} Guitar-slingin', beer-swigin', chick-shaggin', pill-poppin' and rather cliched rockin' and rollin'. It's done well - powerfully produced, well played and punchy with some cool MOTORHEAD touches - but I would rather have heard more pace and snottiness than the sub-Van Halen guitar noodling of 'Better Off Dead' and the AC/DCisms of 'Time To Get Down' - let alone the lurching instrumental boogie of 'Red Wings'. Oddly, I kept getting hints of Oi! in some of the choruses too - check out 'Tonight Alright'. Have to say though, any album that opens with something called 'Cock Teaser' and includes a song called 'Alfa Female' is already on a negative due to its apparent say-nothing sexism. And guess what? This is, generally, dull say-nothing gear - unless you are the kinda rocker who gets his kicks on 'Route 66' while riding the Highway To Hell. (26.07.09)
