The Queers - Live Febraury 3, 2003 - The Bowery Collection

The Queers don't like to waste any time and neither do I... so let me just say that on this live album - which was recorded at CBGB's - these guys do what they do best. Which is play snotty poppunk. 31 songs' worth of snotty poppunk. That's a lot of songs. Meaning there's no time for stage banter. It's mostly Queers originals but they left a little room to squeeze in a Ramones and a Mr. T Experience cover.

Can one ever get tired of a band that mixes up The Ramones with Beach Boys melodies? I don't think so. And hopefully neither do The Queers! Whether you're a longtime fan or looking for an introduction to these guys, this live album will do the trick. No questions asked!

Score: 7.5 out of 10

ABOUT PUNKROCKTHEORY.COM

PunkRockTheory.com is an online zine that has been around for seven years. We still love to force our elitist opinions on people and ask bands the dumbest things first. We currently have twelve restraining orders running against us and we are working on lucky number thirteen!

Recently our server crashed and we lost everything, including our whole database. Since work on the new site is taking a bit longer than expected, we're using this blog for now to post all the latest reviews and interviews.

We hope that's fine with you.
