PLASTIC CRIMEWAVE SOUND - PLASTIC CRIMEWAVE SOUND

New release on CD from the masters of American Psych punk. This one finds Chicago's Plastic Crimewave Sound taking a more song oriented take on psychedelia after their double album adventure, No Wonderland. Mind burning guitars mix with throbbing bass and a propulsive drummer. A very 21st Century mix of psych, Krautrock, acid folk and progressive rock that pushes all of those genres forward in technicolor.

- Eddy Friedfeld
