COMMENTS & REVIEWS

Plastic Crimewave Sound play music that is a mix of psych, Krautrock, acid folk and even prog rock, but the emphasis and attitude is clearly Punk. The material on *Plastic Crimewave Sound* is song based (at times) with extensive musical sections. It features a lot of mind burning guitars mixed with throbbing bass and a propulsive drummer. Clearly not for the faint at heart. Good tracks though performed by a top level band. If interested you should check their Myspace page and take a listen.
Not for everyone but recommended to those who enjoy aggressive and distorted music.
