American Speedway's "Ship Of Fools" Gets Ready To Set Sail

Prophase and MVD Audio is pleased to announce the CD release of American Speedway's "Ship of Fools" for worldwide distribution on October 28. This CD edition of the previously released vinyl contains two additional tracks, "Pennsylvania" and "Watch Your Step". From now until October 28, fans who preorder the CD through SeeOfSound.com will receive a free limited edition American Speedway T-shirt. These shirts will not be for sale on tour. The cost is \$10.00 plus shipping and the order will ship on the official release date of the CD.

American Speedway formed in the beginning of February 2007. They earned their mark as powerful local live rock and roll band that can move a tough crowd, easily make new drinking buddies, and make club owners happy. They began to play shows with legendary acts such as Murphy's Law, Electric Frankenstein, Scott H. Biram, Joe Buck (Hank III), and Wednesday 13 and soon found shows outside of the Philly area: NYC, Cleveland, Boston, Baltimore, DC, etc.

American Speedway's main philosophy is real simple: play what THEY like. that's "real" rock and roll. They're not out to reinvent the wheel, earn scene points, win musician competitions, or be the next biggest thing. Their hit single "One Foot In, One Foot Out" remained in Top 10 Most Songs Played on Sirius Radio's weekly charts, channel 29, for 5 months. Through radio airplay, constant touring, and great press, American Speedway have graduated amongst the earlier believers, etc....

American Speedway are Michael Thursby Speedway (Guitar/Lead Vocals), Chris Callahan (Drums), Billy Angry (Bass/Vocals), and Johnny Griswold (Guitar/Vocals).
