

"At The Cat's Cradle 1992," WEEN (MVD, HH1/2)

This Nov. 11, CD/DVD features a full audio show from 1992, with DVD footage from Halloween 1991 (Holland) and Columbus, Ohio 1992. The band at this time consisted of Dean, Gene, some samples/tapes, and a drum machine. The wit of Ween's subsequent output is evident here; but the occasional profanity sticks out a lot more without better production. Still, it's amazing that the guys were nervy enough to work this way; there were many folks in the D.C. area during the 1980s who could've realized their compositions like this.
