TESCO VEE HATE POLICE - "Gonzo Hate Vibe"
(Meat King)

[Official Tesco Vee Website](#)

I picked up this re release a few months back when the Meatmen came to town on tour. First I just have to say Tesco Vee is a fucking genius. The man is insightful and funny. The music he puts out is top notch hate filled sicko greatness. I love it! The album Gonzo-Hate-Vibe is 30 tracks of pure punk rock and metal mayhem. The production quality is great the lyrics are great, the hate is great! Tesco is a fucking legend and an Icon. Even if I hated this album I wouldn't tell you because I love Tesco Vee. Not in a gay way but in an I can't believe this guy is writing such awesome music way. The re release of this album is nice to have because of the cover of Germs classic Manimal. Darby Crash was a great singer but Tesco takes the song to new limits! Tesco Vee is pretty much the greatest ever. Tesco Vee is like GG Allin, Darby Crash, El Duce, Joey Ramone, Jello, Danzig but only a million times better. Goto www.tescovee.com and buy this album! No really go fucking do it right now!
