Classic Rock

★★★½

You can't keep a good man down. Or Tesco Vee, it seems. The gravel-throated punk d-bag is back with his first CD in a decade. True to its title, it finds Vee and co. covering 24 punk, rock and pop gems from the obvious (Fear, GG Allin, Motörhead) to the unexpected (10CC, Temptations, BOC). Even weirder: They totally nail all of them. Way more awesome than it has any right to be.
