Willy Wilson's DVD Extravaganza!

The More You Watch, The More You Love

by Willy Wilson

With an overload of cool new music DVD's getting released, here's a run down of some of the best new ones just hitting the shelves.

Bill Monroe

Father Of Bluegrass Music

MVD Visual

Pretty cool documentary of Bill Monroe. I would have liked more early clips of his works as opposed to the stuff recorded shortly before his death in 1996. The interviews with Lester Flatt, Paul McCartney and Emmylou Harris are interesting and shine a light on the Father of Bluegrass and how deep his influence ran across the music world.
