This is some really progressive stuff. I am not a huge fan of progressive music, but I do enjoy it at times and this was one of those times. The band is just tight and flawless in their playing and the camera work and sound are just mind boggling at times. The band sound and are tight and every note sounds crisp to perfection. The camera work makes you feel as if your in the front row and the band seems to be enjoying themselves as they rip through each tune. If your into King Crimson, old Yes or Genesis, then you'll love this baby. Info: <http://www.mvdb2b.com>
